A powerful athletic stallion that is full of presence with a tremendous jump and an outstanding temperament whose bloodlines are literally soaked with top class competition breeding.

This impressive son of **Louella Inshallah II** is an almost mirror image of his famous father who was awarded a Supporters of British Breeding lifetime achievement award and is the only stallion to have featured in the top five show jumping, eventing and dressage rankings with the BHDB for progeny performance. In 1998 he was described as “*the leading all round sire of competition horses in the country today*”

Inch Square has an abundance of bone to go with his size and is a free flowing straight mover which is essential to breed top class competition horses, an outstanding example of the modern day Hanoverian competition horse with the excellent conformation athleticism, extravagant paces and outstanding bloodlines with the ability to sire international stars of the future.

He is an incredibly active short coupled horse with a fabulous front and length of rein with the ability to inject quality, substance and wonderful temperament in to all types of mares being an absolute gentleman when covering he is an ideal choice for nervous or maiden mares.

Having such a noble head and kind eye he is a real eye full of a horse with substance and quality, his fantastic temperament has been inherited by his young stock that are proving themselves as quality show and competition horses.

Finding a competition stallion who is kind, easy to handle and takes everything in his stride with manners to die for can be hard enough to find – but one that can be led whilst riding another horse must be a testament to his outstanding temperament.

When competing he proved to be a talented horse a true athlete in both dressage and jumping who was very bold and careful – his BSJA print out speaks for itself consistently jumping double clears even now he loose jumps for fun over 1m 30 showing a classic technique with scope to burn. This stallion was trained and competed in England by Silvia Schorn working at advanced medium level and was a regular winner with British Dressage in the Isle of Man ridden by Ian Holt.

Standing previously at a private stud in the Isle of Man this is the first time he has been available on the main land to cover outside mares. We consider him to be an ideal choice to breed show jumpers, dressage horses top class ridden show and working hunters as well as all round performance horses.

Conrhenny Inch Square is from a family of top class competition horses bred by Pat Osborn in the Isle of Man over the last fifty years each one of them has been selectively bred and produced to achieve success in many fields.
