**About This Walk**
Nicky Nook, though modest in height, offers splendid views over Lancashire’s coastal plain, Morecambe Bay and beyond to the Lakeland fells. On a really clear day it is possible to see the Isle of Man and the Great Orme on the North Wales coast. Birds such as meadow pipits and skylarks are common on the fell, while the more fortunate may catch a glimpse of tree pipits or yellowhammers.

Scorton is a picturesque village and a great starting point for walking, riding & cycling.
